

Family Support Program

Youth Program Office, Springfield, IL March 1st, 2012

Project Linus had a blanket making party and delivered 130 youth blankets to the Illinois Army National Guard Youth Program.

Blankets are given to each youth and a matching swatch of blanket material is given to the parent to take with them on their deployment. Children take comfort in feeling that their parent is sleeping with them.

The Youth Program Office has been providing blankets to deploying Army National Guard Kids throughout the past year. As our partnership continues to grow with our friends at “Project Linus” we anticipate another great year!

Blankets are presented to youth during Unit Mobilization Briefings.

This is the second large blanket donation from this group this year.
