

# LEADER AND SOLDIER GUIDE FOR BOARD ACTIONS

Issue Date 1 October 2020

## SUMMARY OF CHANGES

### FY 2021

1. Structured Self Development (SSD) is now referred to as Distributed Leader Course (DLC).
2. Promotion points are now considered for Soldiers competing for promotion from Sergeant to Staff Sergeant per PPOM 20-001.
3. References added in Appendix C
4. Chapter 5 added "Consolidated Changes due to COVID-19".
5. Removal of DA photo requirement.
6. Checklist Updated
7. NCO DP "IPPS-A Guide to board actions" created for units to use alongside of the Soldier leader guide.
8. NGB Form 4100-1A and NGB Form 4100-1B replace the old 4100.

### FY 2020

1. Updated Enclosure 4 to allow for capturing the Soldiers current APFT / ABCP data.
2. Promotion consideration options will not be captured via DBIW but rather a PDF document.
3. Updated E9 EPS list to allow for sequencing. NCOs that complete Sergeants Majors Academy will be sequenced over Soldiers who have not.
4. Updated Time in Service (TIS) requirements for Soldiers being considered for SFC & MSG. TIS is changed to 9 years for SFC and 13 years for MSG
5. PIR/PER are currently not available via DBIW and will be available from PAB via PDF.

### FY 2019

1. Updated to reflect Expanded Zones of Consideration from PPOM 18-001 dated 07 February 2018. Allows the promotion authorities to consider Soldiers who have not met the time in grade and time in service (TIG/TIS) requirements. However, they cannot select Soldiers until they reach minimum TIG/TIS requirements during the life of the promotion list.

2. Updated the Completion of Master Leader Course is a pin-on requirement for Promotion to Master Sergeant. (Effective 01 January 2019).
3. Updated MSG/1SG selected for Sergeant Major (SGM) must have satisfactorily completed Module 2 of Phase 1 on the non-resident USASMC as a pin-on requirement, resident course attendees are eligible for pin-on 01 January of the year the course is conducted.

#### FY 2018

1. Updated to reflect the requirements of PPOM 18-001 except for the Expanded Zones of Consideration. Added the Professional Military Education (PME) completion for pin-on requirements, Modified selection procedures are outlined for SGT through Master Sergeant.
2. Updated Time in Service (TIS) requirements for Soldiers being considered for SFC & MSG. TIS is changed to 8 years for SFC and 12 years for MSG.
3. Updated Soldiers that are selected for SGT positions without the required Basic Leader Course must complete the course within 12 months of the date assigned to the higher graded position. If they do not complete, they are subject to removal from the position. This is a change from the previous 24 months authorized to complete.
4. Updated "U5" coded Soldiers will be removed from selection when they exceed the Assignment Consideration Code timeline outlined in Table 7-4.

#### FY 2017

1. Updated MLC requirement for E8 pin-on effective 1 January 2019.
2. Requirement for Memorandum to president of the board for 1SG consideration on the BQLB.

#### FY 2016

1. Updated NGIL Form 2166-9 to reflect implementation of DA 2166-9 for NCOs and the guidance on the completion of the document.
2. Soldiers will now annotate the selected Career Progression Military Occupation Specialty on the 2017 Checklist.
3. Updated NGB Form 4100-1A-R-E to reflect administrative point changes in accordance with AR 600-8-19. Clarification of the point distribution.

4. Included reference to the “F” additional option on NGIL 4100A.

FY 2015

1. Added guidance and explanation concerning January 2016 implementation of Select, Train, Educate, Promote (STEP) Career Management Model.
2. Inclusion of new functionality within Database Input Website (DBIW) for Personnel Eligibility Report.
3. Update to 2016 version of NGIL 4100A for all ranks.
4. Creation of Biographical Sketch section.
5. Appendix B added with the inclusion of the Enlisted Promotion Data Brief
6. Reorganization of entire document to provide ease of use and consolidation of key functional areas.

## **CHAPTER 1: Select, Train, Education, Promote (STEP) Career Management Model**

### Section 1.1 STEP Career Management Model

#### 1.1.1 What is STEP?

As of January 1, 2016, the Army National Guard Professional Military Education (PME) requirements and Distributed Leader Course (DLC) have undergone dramatic changes concerning promotions. Over the past decade, National Guard Soldiers have received an unprecedented amount of combat experience; however leaders must also possess the requisite formal institutional professional development training and associated skills to meet further challenges to the National Guard.

The STEP Career Management Model has four primary changes to highlight:

1. Time in Grade (TIG) requirement for Senior Grade Promotions (E7-E9) has been increased to 36 months.
2. DLC requirements from E5 and E6 promotions increased
3. PME requirements for “Pin-On” promotion created

#### 1.1.2 Promotion Consideration Requirements

In the below table, the requirements for promotion consideration (to be included in the Enlisted Promotion System board process) are listed:

<b>Rank</b>	<b>Min Admin Points</b>	<b>TIG</b>	<b>TIS</b>	<b>CES</b>	<b>SSD/DLC</b>	<b>PME</b>
SGT	50	12 months	N/A	N/A	SSD1/DLC 1	N/A
SSG	75	18 months	N/A	N/A	SSD2/DLC 2	BLC
SFC	N/A	36 months	8 years	6 years	SSD3/DLC 3	ALC
MSG	N/A	36 months	12 years	8 years	SSD4/DLC 4	SLC
SGM	N/A	36 months	16 years	10 years	N/A	N/A

Expanded zone of consideration allows the promotion authority to consider Soldiers who have not met the TIG and/or Time in Service (TIS). The promotion board will consider Soldiers based upon TIG/TIS requirements from the administrative date through 31 March 2021. Soldiers must be otherwise qualified for consideration. While the names and sequence numbers will populate on the EPS Standing List, the promotion authority cannot select these Soldiers for promotion until they reach the minimum TIG/TIS during the life of the promotion list.

Minimum administrative points for SGT boards is 50 points. SSG boards are now considering administrative points. The minimum requirement for E5 to E6 consideration will be 75 Administrative points. SSG admin points are calculated the same and SGT. Transaction procedures are under each section breakdown of the 4100-1A.

### 1.1.3 “Pin-On” Promotion Requirements

Under the STEP Career Management Model, in addition to the promotion consideration requirements, Soldiers must also meet PME requirements before being able to pin-on their next rank. The table below lists the PME requirements for the selected rank and gives a timeline requirement for Soldiers to complete their required PME:

<b>PME and Timeline Requirement after Selection/Assignment for Promotion</b>				
<b>Rank selected for</b>	<b>PME</b>	<b>Time to Complete</b>	<b>PME Waiver extension authority</b>	<b>Remarks</b>
SGT	BLC	12 months	N/A	N/A
SSG	ALC	24 months *	O6 CDR **	N/A
SFC	SLC	24 months *	First GO **	N/A
MSG	MLC	24 months	N/A	N/A
MSGB	USASMC	N/A	N/A	***Conditional promotion to SGM
* Plus an additional 12 months per phase after the second phase				
** PME waiver authority may authorize an additional 12 month extension				
*Effective with Class 46, SMC (non-resident), Soldiers must complete Term 1 of Phase 1 as a pin-on requirement to the rank of SGM.				

### 1.1.4 How Promotions Will Work

The ARNG will no longer by-pass Soldiers without the required PME who compete for the next higher grade. Soldiers who meet the promotion board considerations requirements will be selected in sequential order based upon the Enlisted Promotion System (EPS) list. Soldiers selected for a position/promotion, who still require additional PME, will be transferred to the position without promotion action. Commanders will ensure these Soldiers are enrolled in their required PME within 120 days of assignment and counseled of their requirements.

Soldiers who decline/refuse, fail to apply/enroll, fail to be accepted, fail to attend, fail to graduate due to an act, omission, or failure of standards (fault of the Soldier) after being notified of the training requirements necessary for promotion, will be counseled and reassigned to the first available vacancy commensurate with their current grade and MOS. Soldiers removed from their higher grade position are ineligible for promotion board consideration until the next scheduled annual board. Soldiers may request exception to policy through the chain of command to the first General Officer for approval to be retained in the position under meritorious cases (i.e. Family medical emergency, serious employment issue, etc.).

Operationally deployed Soldiers may request ETPs for PME courses. Commanders will follow the Guidance in PPOM 19-051 to determine eligibility and submit the ETP.

## CHAPTER 2: Board Roster and Functionality

### Section 2.1 Board Roster

#### 2.1.1 Board Roster Overview

Now that the ILARNG is utilizing IPPS-A, Promotion Eligibility Rosters are referred to as Board Rosters. Board Rosters can be viewed in IPPS-A by following this path: Navigator, workforce administrations, boards, board roster. Select “Search” without putting any information in the search criteria. This will populate all boards broken down by rank and FY. Select the Board Roster you would like to View.

### 2.1.2 Soldier Promotion Board Preferences “Region Elections”

Via the Soldiers IPPS-A Self Service homepage they can select “Promotion Board Preferences”. This is where the Soldier can elect their regions and other region options.

On this page Soldiers need to make their board elections:

- 1 – Do you want to be considered? Yes or No
- 2 – Select your CPMOS
- 3 – Validate your promotion points – See section 2.1.3 on how to do this.
- 4 – Select yes or no for all regions options:

Geographical Locations 1-10 correspond with Illinois 10 EPS regions.

Region K = With-in Company level moves only

Region L = With-in Battalion level moves only

Region M = With-in Brigade level moves only

### “Within” Selections

Training Year 2015 Enlisted Promotion Board introduced the “Within” option as yet another area to which Soldiers can focus their promotion opportunities. Soldiers are afforded the opportunity to select promotions from within their company, battalion, or brigade. These selections can be made in lieu of region selection or to complement region selections the Soldier has already made. The way this will work is, if a Soldier selects company, battalion, or brigade, they will be electing all the regions that the respective organization level has units in. However, they will not be offered promotion opportunities in those regions for units not belonging to their current organization.

An example of utilizing the “With-in” options is the 634<sup>th</sup> BSB. A Soldier in F Co 634<sup>th</sup> BSB (located in Mount Vernon) elects Battalion consideration. This makes the Soldier eligible for promotion in Region 2, 4, 5, 6, 7 (but only in companies within their battalion).

It is the First Line Leader’s responsibility to ensure that Soldiers know that selecting these options is available to a Soldier, but that Soldier needs to know where the units within their battalion/brigade are located and where their future offers may be.

### Additional Options

In addition to region selection, each board proceedings Soldiers have the opportunity to select specialized MOS considerations.

Soldiers are given the choice of 00F positions which are positions that do not meet a specific MOS requirement as directed by National Guard Bureau. Reference the 00F listing to see if your MOS is a feeder into specific 00F positions you’re interested in.

Soldiers desiring to compete for assignment in the Regional Training Institute (RTI) must meet the selection criteria and elect consideration as an additional option “8”.

Soldiers eligible for Flight status (F) may elect to be considered for promotion opportunities in aviation units. All Soldiers desiring to compete for promotion within Det. 1 Co. B 1/376th Aviation must be able to provide proof of tier qualifications below:

- Tier 1 candidates will possess a qualifying 15 Series CMF and the Airframe and Power plant (A&P) Certification.

- Tier 2 Candidates will possess a qualifying 15 Series CMF and be eligible to obtain the A&P certification.

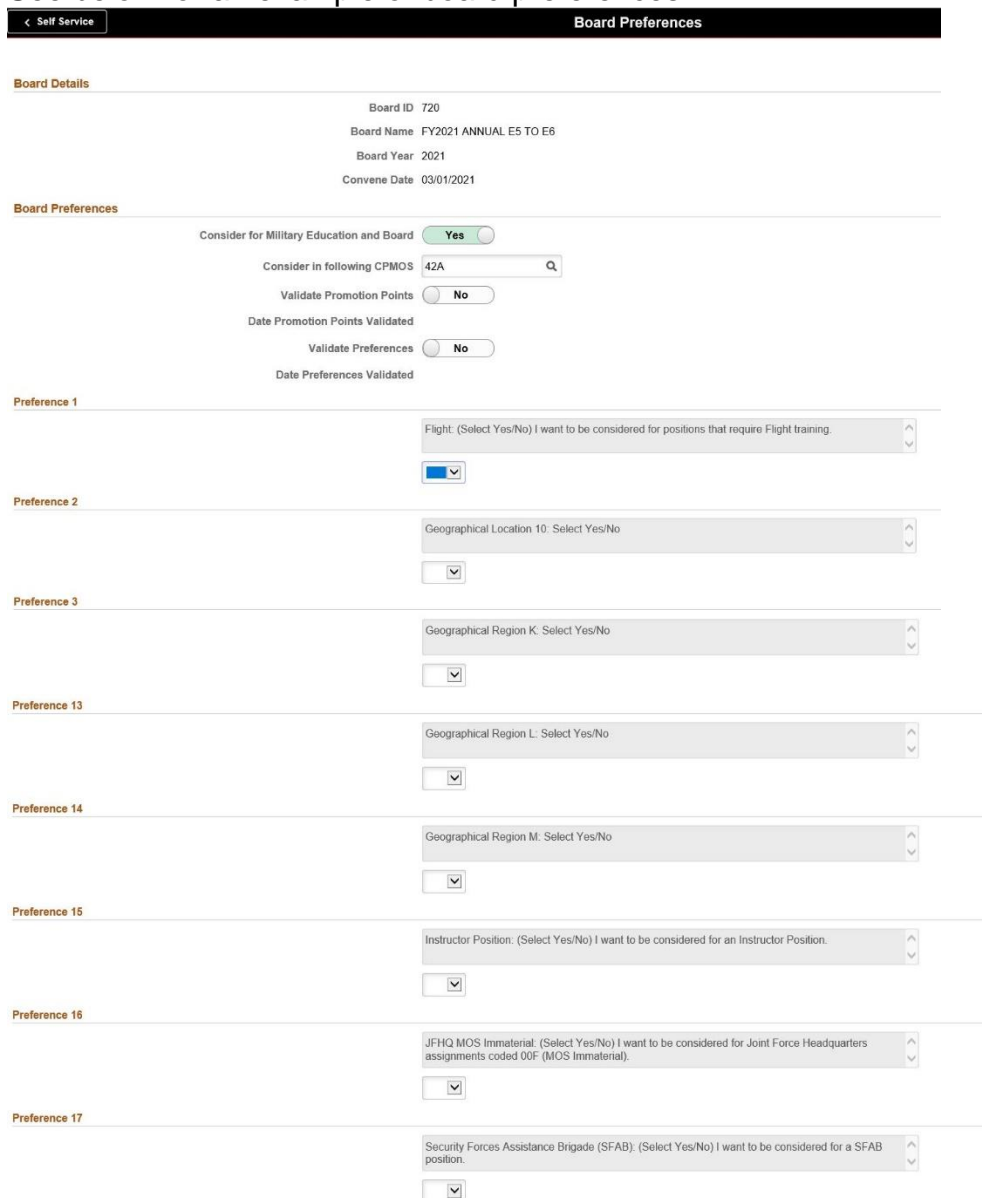

- Tier 3 candidates will possess a qualifying 15 series CMF and have completed the Original Equipment Manufacturer/Maintainer (OEM) Course.

Soldiers desiring to compete for assignment to the 6th Battalion, 54th Security Force Assistance Regiment (SFAB) must meet the selection criteria and elect consideration as an additional option "Z".

Sniper positions will only be offered to Soldiers on the EPS list who are already qualified in the ASI of B4.

All of the additional options are only valid if the Soldier also chooses the regions where these positions are located (reference the MDL).

See below for an example of board preferences.

If a Soldier receives a messages of “YOU ARE NOT CURRENTLY ON ANY ACTIVE PROMOTION BOARDS”. The Soldier needs to get with their S1 to determine IF the Soldier has met all requirements. If so, contact Specialty Actions Branch. A review will be done at State level and if necessary a Help Ticket will be created.

### 2.1.3 Soldier Promotion Points Update

When a Soldier is eligible for the Sergeant or Staff Sergeant boards they will be able to view and request updates to their Administrative Points via a Personnel Actions Request. Soldiers need to search for “Promotion Points” in IPPS-A via the magnifying glass in the top right hand corner and select the below option.

From this screen Soldiers can review their individual points and determine if they are correct or if an adjustment needs made.

If a Soldier feels their points are incorrect they can go to the Self Service page of IPPS-A and select “My Personnel Action Requests”. This will allow them to initiate a request with their unit to review the actions they want fixed.

Select Category “Misc”, PAR Type “Admin Correction”, Create new PAR. Below is an example of a requested Admin corrections PAR. Soldiers can add attachments to streamline the process and save their S1’s time.

#### 2.1.4 Master Development List (MDL)

The MDL is an important tool for counseling Soldiers on their region elections. Soldiers should refer to the MDL when making decisions on which regions they would like to compete in for promotion. This will also help them determine if their career path is viable for the next rank. The MDL is updated based upon any changes to MTOEs within the ILARNG. This provides the most up-to-date information to both leaders and Soldiers while working promotion packets.

How does a Soldier know where promotion opportunities are? Unlike the predominate MOS of a unit (11B for an Infantry Company, 88M for a Transportation

Company, etc.), support MOS's within a unit do not have a clear line of progression for promotion. For those Soldiers, their promotions will come from other units. This is why the Master Development List was created.

The MDL is a multiple page document that covers all MOS's within the ILARNG for all ranks and the authorized positions for those MOS's in their respective regions. To illustrate what that means and how a Soldier should read the MDL, let's look at an MOS that has multiple opportunities for promotion in a variety of regions but is not a predominate MOS of any company, 42A.

In DBIW, under the Personnel Tab, Select EPS, "EPS Page".

10-SOUTH	18	8	1	0	0	0	0	10-SOUTH	1	0	0	0	0	0	0	10-SOUTH	27	15	4	0	0	0	0

The columns for each MOS reflect the ranks of NCOs and the rows annotate what regions have positions for that respective rank. A 42A Specialist, for example, has promotion opportunities to make Sergeant in seven different regions and 42 different positions (keep in mind the MDL does not designate what positions are AGR so the opportunities for MDAY Soldiers will be limited by that factor).

The MDL allows a Soldier to tailor their selection to not only the regions they are willing to commute to, but also select only the regions where they would have a promotion opportunity. Using the 42A Specialist example again, if a Soldier in the Chicago area was willing to go anywhere in Chicago to make Sergeant, without using the MDL, they would select regions one, two, and three. Selecting region one in this case is useless as there are no Sergeant positions in Chicago North. This will not hurt a Soldier's promotion opportunity, but does nothing to benefit them. First Line Leaders should have not only the region map available to the Soldier during the processing of the NGIL 4100A, but the most up-to-date version of the MDL also.

## Section 2.2 NGB FORM 4100-1A SGT and SSG

### 2.2.1 Overview

NGB 4100's A & B can be created out of DBIW. Utilized the EPS Tab and navigate to the 2020 EPS Page. Select NGB 4100's. **YOU MUST SELECT A UNIT FIRST.** Once a unit has been selected all NCOs for that UIC will populate. You can either select individuals or all NCOs.

<b>NGB 4100's</b>						
Select Unit: <input type="text" value="8ATAA - JOINT FORCE HQ"/>						
4100s						
Version 2020020531						

The NGB 4100-1A is used to calculate administrative points for Sergeant and Staff Sergeant Promotion consideration. Take this sheet and compare it to the board roster to validate that all points are correct.

The NGB 4100-1A is critical to the calculation of your total board score, which ultimately determines your overall placement on the EPS Standing List. If your score is

incorrect by as little as 1 point, that could determine whether you will be promoted or not. It is your responsibility to ensure that every block found within the NGB 4100 is correct and up to date.

### 2.2.2 Section I: Personnel System Data

Ensure Personnel data is correct and that block 4, “CPMOS”, reflects the MOS that you wish to be promoted against. For any changes to CPMOS, refer to the current board guidance. You must request to change your CPMOS on a DA 4187. Only after it has been approved will you populate under the new CPMOS list you requested.

23) Weapons qualification:		24) APFT/ACFT score:
25) Other resident training weeks:		26) Self-development course hours:
		27) Post-secondary semester hours:

**Weapons Qualification:** - Weapons qualification will be based upon the most recent qualification within 36 months of the administrative cut-off. Date is formatted as YYMM.

**Table 7-5**  
**Weapon qualification levels**

Level	Points
Marksman	25
Sharpshooter	50
Expert	75

**APFT (Army Physical Fitness Test):**

- Listed as YYMM / ((P)ass or (F)ail) / score.
- If you are exempt from an event, 60 points are awarded for that event, i.e. Soldier having a permanent profile excusing him/her from the sit-up event would be given 60 points in that event for promotion point consideration.

- If you are required to take an alternate aerobic event, and receive a GO, then the average of the other 2 events will be the alternate events score, i.e. Soldier successfully completes 2.5 mile walk alternate event while scoring 70 points on push-ups and 80 points on sit-ups, Soldier would receive 75 points for the third event for promotion point consideration.

- If on Temporary Profile, use previous score as long as it follows the 18/8 month rule.

18 Months for M-Day/Technician.

8 Months for AGR

If it falls out of the 18/8 Month Rule at the time of the board (not after the fact), but it was extended by an Army medical officer and signed by the Soldier’s commander, you may use the previous APFT. Reference Chapter 5 for COVID rules.

- Extended scale score will not be listed.

- Maximum of 75 Points.

**Other Resident Training:**

- Enter 5 points for each full week for all other military resident course.

- Basic Training, OSUT, Initial AIT, or reserve component NCOES courses will not be used for other resident training points.

- Will be used for any Secondary MOS Producing school.

- If the Soldier completes the same level of an active component and Reserve component course, you will compute the Reserve Component course credit here.

- Do not award points for partially completed courses, i.e. multiple phases.

- Maximum of **50** points.

Self –Development courses:

- Award 1 point for each 5 credit hours (or Emergency Management Institute study hours).

- Award an additional 5 points for each diploma, completion notice, or document that shows completion of sub course. To be eligible for the additional 5 points, sub course series must have at least 5 sub courses or 25 hours. Sub course must be intended for enlisted service members. Additional 5 points will not be awarded for courses that are closed to enlisted members.

- If only source of hours is the NGB 23A (RPAS Statement) or other comparable service record, multiply the sum of retirement points for sub courses by 3 and then divide by 5. Do not round up or transfer remaining points to other courses. Do not award 5 additional points unless documentation is present. I.e. Soldier has 20 retirement points on NGB 23A at the time of the board. Soldier would be eligible for 12 points in Other Resident Training ( $20 \times 3 = 60$ ,  $60 / 5 = 12$ ).

- Maximum of 75 points.

Post-Secondary semester hours (Civilian Education):

- This will be based on Official Transcripts from recognized by ACE (American Council of Education), a complete list of Accredited Institutions of Postsecondary Education institutions is published annually. <http://ope.ed.gov/accreditation/> provides a searchable database for all accredited schools.

- The high school diploma (or GED equivalent) is the minimum civilian education required for promotion, no points are awarded.

- 1-60 semester hours. One point per semester hour.

- 61 and up semester hours for Associate's Degree. No additional points are awarded.

- Baccalaureate or higher Degree. Award 75 points regardless of semester hours
- Semester Hour Conversions:
  - 1.5 quarter hours equal one semester hour.
  - 16 classroom or clock hours equal one semester hour.
- Points for examination results under DANTES Sponsored tests.
- CLEP General Exam (College Level Entrance Program):
  - Must complete all five parts.
  - Equivalent to one year of college and 30 semester hours.
  - Awarded 6 Semester Hours per portion.
- CLEP Subject, DSSTS (DANTES Subject Standardized Tests), and ACTPEP's (American College test Proficiency Examination Program), ASE (Automotive Service Excellence) Tests:
  - Will be awarded points based on the recommendation from ACE (American Counsel of Education).
  - Business, Trade, or Vocational Schools.
  - May only be used for points if they list number of course hours.
- Maximum of 75 points.

Section V & VI do not need completed by the Soldier or the unit. These sections are completed in NGABS automatically.

## Section 2.3 NGB Form 4100-1B SFC through SGM

### 2.3.1 Overview

The NGIL 4100-1B will be utilized to validate a SFC through SGM desires to complete for EPS consideration. This document provides all the relevant promotion consideration information for Soldier's. This will include their CPMOS, whether they wish consideration, and/or command non-recommendation. The information on the NGIL 4100-1B directly reflects what is in IPPS-A.

## CHAPTER 3: Record Review

### Section 3.1 Record Review

It is imperative that prior to the convening of the board, Soldiers have completed a thorough and accurate review of their iPERMS performance folder, Enlisted Record Brief, and APFT/ABCP information. To facilitate the record review process, the G1 has created a single page document found in Appendix B.

### Section 3.2 Review of AMHRR in iPERMS

#### 3.2.1 Overview

In order to provide the board members with these documents digitally, every Soldier's performance folder from iPERMS is downloaded and made available to board members. What that means for the considered Soldier is that they need to do their due diligence and perform a detailed review of their records prior to the board.

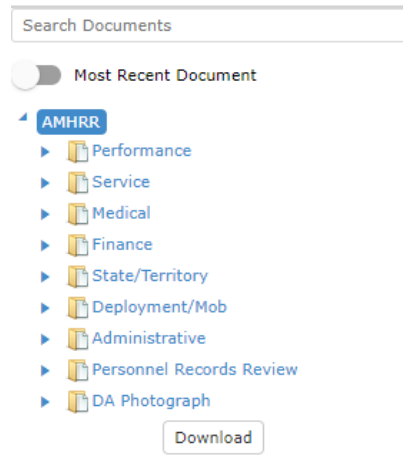

#### 3.2.2 Accessing iPERMS

Soldiers with a valid Common Access Card can view their iPERMS files at <https://iperms.hrc.army.mil/login/>.

The screenshot displays the iPERMS web application interface. At the top, there is a green header with the text "UNCLASSIFIED//FOR OFFICIAL USE ONLY". Below the header is a navigation bar with the iPERMS logo and several menu items: "Announcements (8)", "Documents", "Reviews", "Help/FAQ", "Preferences", and "Domain Contact Information". The main content area is titled "Announcements for Soldier in IL". It features a yellow header for "iPERMS Support:" followed by a white box containing contact information for Army National Guard Soldiers, National Guard G1 Contacts, and IPERMS Support. Below this is another yellow header for "PLEASE READ:" followed by a white box containing information about the Army Service Center (ASC) updating the list of Required Documents for filing in the AMHRR quarterly. At the bottom, there is a yellow header for "Video Tutorials".

- Click on I Accept on the main page to get to the login screen.
- Click on the Certificate Login to enter you CAC Pin number.
- Click on I Accept after reading the Privacy Act statements.
- You will be brought to your individual performance folder. This is the key information to review.

### 3.2.3 Review Performance

The performance folder in a Soldier's iPERMS records contains multiple documents that fall into three categories: Evaluation, Education, and Commendatory.

Evaluations include all DA 2166-8, DA 2166-9, DA 67-9, and DA 1059. For boards, these are key documents as they show performance evaluations during a Soldier's service. DA 1059s are academic evaluations for any formal military training a Soldier has completed. Ensuring all MOS producing schools and NCOES/OES DA 1059's are present is mandatory for board packets. DA 2166-9s and DA 67-9s are NCO and Officer Evaluation Reports. What Soldiers should ensure when reviewing these forms is that there are no breaks in the evaluation reports and the most recent reports are present. If breaks are present an explanation should be presented to the board on a memorandum.

Education includes all correspondence course and civilian education the Soldier has completed. Soldiers reviewing this section should ensure that their highest level of civilian education is present and that any correspondence courses they have completed are included.

Commendatory includes all citations for military awards, letters of appreciation, and awards given to a Soldier without a permanent order. When reviewing, Soldiers need to

ensure that the awards listed in this section mirror both the Enlisted Records Brief and their NGB form 4100-1A for Sergeant and Staff Sergeants.

Soldiers reviewing their records should take the time and effort to make sure documents are not missing, but also that the documents in their iPERMS are truly their own. The best way to address corrections needed for a Soldier's iPERMS is to contact the unit S-1 or supporting personnel office for assistance with an audit of records.

### Section 3.3 Enlisted Records Brief Review

#### 3.3.1 Overview

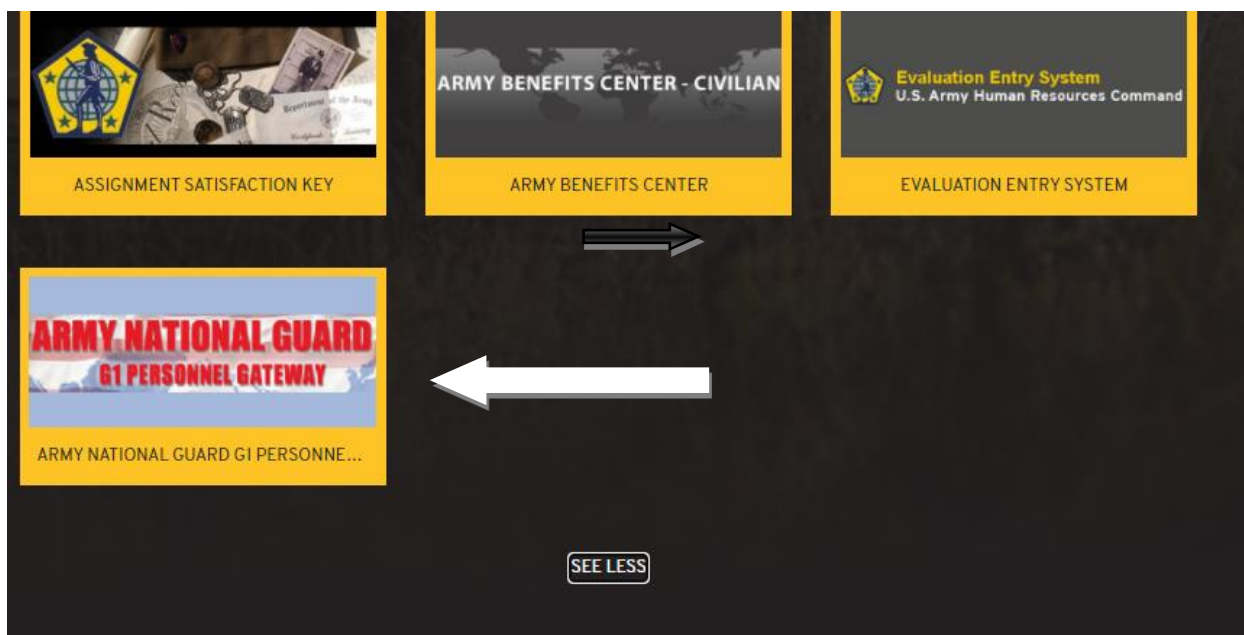

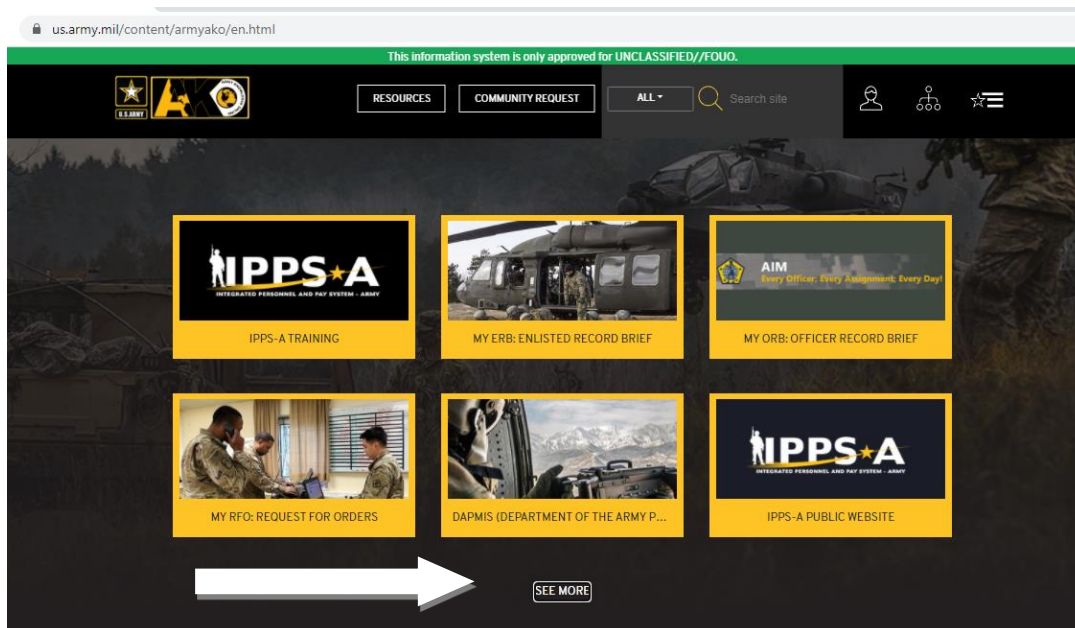

A validated Enlisted Records Brief (ERB) is a key component in presenting a Soldier's total service and accomplishments during a board proceedings. So what exactly is this form and why is it important?

Per The Army National Guard's G1 website, the ERB is a one page Army form designed to provide a summary of a Soldier's qualifications and career history. It is a Soldier's entire military career and highlights put into an easy to read one page format. It is also the form board members will review to see the whole picture of the Soldier. Your NCOERs, DA 705, and other supporting documents for a board packet give specific examples of your successes, but the ERB will show board members your entire history within the military.

#### 3.3.2 Accessing the ERB

Now that we've established what it is and where it's used, let's look at where you go to download your own ERB. All Army National Guard Soldiers have access to their individual Records Briefs via the ARNG National Guard Benefits Online website. This website is easiest reached via AKO.

Log in by selecting the "Log in with CAC" button. Select your CAC ID from the window that pops up and enter your PIN as required.

On the right hand of the screen are options for you GI Bill information, Tuition Assistance Program, and Record Brief Home. Click on the link labeled "My ARNG Record Home Page" to continue.

# WELCOME TO THE CAREER CENTER

National Guard Soldiers can view their career accomplishments and plan out the next steps of their career. You can view and validate your Record Brief, view your official personnel data, access Career Field maps, see how you compare to your peers on Soldier Performance Metrics (SPMs), and view and select potential future positions of assignment.

For any board process you may be a part of, the only item provided to board members is the Selection Board Record Brief. In the Selection Board Record Brief, several key areas are redacted to include Dwell Time and Personal/Family Data. These items are removed in order to prevent any prejudice by board members. For the most accurate

Record Brief to review, we want the entire document and that is provided by the current Record Brief button.

### 3.3.3 Understanding the ERB

The goal of this next section is to explain what each section of the ERB is, what information should be in there, and where do you go to update it. One of the biggest After Action Review comments from any board proceeding is the board's concerns about ERBs. This document weighs heavily on your successful completion of a board. Taking the time to review and update this document demonstrates to the board that you take pride in the accomplishments you have and want to present the best possible picture of the Total Soldier.

Section I contains a multitude of information from various sources. When reviewing your ERB prior to any board, you should focus on 2-3 portions of this section.

OS/Deployment Combat Duty: This portion reflects any and all combat or overseas duty. It will list the start and end dates followed by the Country code to which you served. In addition, the column labeled TT will annotate what type of overseas/combat duty you performed. The options here include:

- L = Long Tour
- S = Short Tour
- C = Combat

O = Operational (Non-combat)  
 R =Dependent Restricted

If you should find a discrepancy for this area, provide an annotated copy of your ERB and any supporting documentation, e.g. DD 214, Mob Order, etc., thru your administrative channels (following any local guidance your chain of command has put in place). The source of record for this information is directly fed from the Record Brief Application on the G1 portal.

The second item to focus on is the PMOS, SQI, SMOS, ASI portion. This information is fed directly from IPPS-A and should accurately reflect any and all MOS qualifications that have been awarded to you. For discrepancies, review all MOS personnel orders in iPERMS and IPPS-A job data. Follow your local guidance to request MOS orders by providing copies of the DA 1059 or certificates of completion thru the appropriate channels to the unit S1.

The final item to review is your ASVAB information at the bottom of Section I. This information is taken directly from your iPERMS record, either a DD Form 1966 or a MEPCOM 714 ADP form, if the ASVAB was retaken. The G1 Portal Record Brief Application has the ability to update any changes required to ASVAB scores.

Section II – Security Data

SECTION II - Security Data	
PSI Status	PSI INIT

Security clearances are required for some MOSs and ranks within the ILARNG. As a result, your current security information is posted in Section II of the ERB. The dates of your investigation, when it was initiated, and the clearance you were granted are all detailed here. For personnel with security clearances, ensure your security clearance is still valid (10 years for Secret, 5 years for Top Secret), if not, have your full time unit staff initiate the PSIP renew process. This information is updated directly from DBIW and input only by the Security Branch of the G1 office. Contact your chain of command with any questions or concerns with regards to initiating a PSIP.

# Days	AGCM Dt	AGCM Elig Dt		
DOR	PVT	PV2	PFC	SPC -CPL
DOR	SGT	SSG	SFC	MSG - 1SG

Service data has three different portions to review. Basic Active Service Date (BASD) applies only to Active Soldiers indicating total active Federal service creditable towards retirement. This is a computation of when you started active duty and any

creditable Federal service (DD 214). If you find an error in this, process it through your administrative channels to resolve. This date is fed from IPPS-A and must be updated at a state level.

Pay Entry Base Date (PEBD) applies to all Soldiers and refers to all Military service time. For anyone without a break in service, this will be your enlistment date. For personnel with breaks in service, this date will be adjusted from your original enlistment date and updated to reflect any missing time. Your Retirement Points Accounting Management Statement (RPAS) gives a detailed history of your service and can be used to verify the PEBD. Inquiries for adjustment need to be submitted through your administrative channels to the Retirement Services Office with appropriate supporting documentation (DD 214, LES, etc.)

The bottom portion of the ERB will list the Date of Rank for each promotion as you progress through your career. Ensuring the accuracy of these dates is incredibly important for your eligibility for future promotions. For promotions from E2 – E4, you will find either a DA 4187 or Permanent Order in your iPERMS. Utilize these documents to check your DOR. Any promotion from E5 on will have a Permanent Order. It will be available in iPERMS and will be used to validate the dates on your ERB. If any issues are found, submit the substantiating document (DA 4187 or order) thru your administrative channels.

Emergency Data Verified Date	

Per PPOM #20-026 DA photos, race, ethnicity and gender has been redacted to give fair assessments of Soldiers strictly based off performance throughout their careers. Ensure this information is correct and for any discrepancies request changes via DA 4187 through your administrative channels.

The majority of the information provided in Section IV is sourced directly from IPPS-A. Any changes to Country of Citizenship, Religion, APFT, Home of Record, Mailing Address, and Emergency Data Verified Date can all be updated at the unit level through IPPS-A.

Dependent information (No. of Dependent and Marital Status) is driven from the DEERS system and changes to it must be coordinated through your local DEERS

facility. You can find the location of your closest DEERS facility at <http://www.dmdc.osd.mil/rsf>.

PULHES, Height/Weight, Physical Category, Last Physical Exam, and MMRB Results/Dt are driven by MEDPROS and your last Annual PHA. This information will not be updated until you have completed a new medical examination.

Section V – Foreign Language

Section V - Foreign Language			
Language	Read	Listen	Speak
DLAB			

Any foreign language proficiencies recognized by the United States Army will be annotated here along with completion of the Defense Language Aptitude Battery (DLAB). To update any proficiencies, the DA Form 330 is the source of record to be submitted to Education Branch for their verification and input into the ERB.

Section VI – Military Education

SECTION VI - Military Education	
MEL	
MES	
Course	Year
BMQ	
Correspondence CRS Total # Hrs	

Military Education Level (MEL) and Military Education Status (MES) are ATRRS driven reporting categories. The MEL will annotate the highest level of Non-Commissioned Officer Education System that you have completed (e.g. BLC, ALC, SLC, MLC, and USASMC). The MES will annotate your current status (e.g. Graduate, Enrolled, Withdrawn, etc.). As this is also one of the key driving factors for promotion consideration, ensuring your MEL/MES is updated within ATRRS and IPPS-A is a priority when reviewing the ERB. To update these fields, provide copies of your DA 1059 to your unit administrator and ensure both your iPERMS, IPPS-A, and ATRRS records are updated.

Course/Year field is the list of the top ten military courses you have completed in your career. This field is input and managed directly by the G1 Portal Record Brief Application. ATRRS is the source record for courses to be listed in these fields. In a given career, most Soldiers will attend more than the ten courses listed here, so it is a good rule of thumb to keep your course completion list up to date and tailored to the

most relevant courses to your PMOS. Review the courses you have attended and decide which courses represent you as a total Soldier in order to provide a board the most accurate picture of your military education.

This section includes all military decorations, campaign service awards, non-military decorations/awards, identification badges, unit awards (permanent), combat/special skill badges, and battle campaign participation. The maximum number of awards displayed in this section is 34. If you find any awards that are missing submit your DA 638, award certificate, or HQDA letter through your administrative channels to your IPPS-A information updated.

The assignment history section has two important pieces to review. First is the Date of your Last NCOER for all NCO's. This information is fed directly from IPPS-A and should reflect your last completed NCOER. Review this date with your iPERMS and submit your DA 2166-8 through your administrative channels to update your records.

The second area is your assignment history. This is a record of all your duty assignments within your career. It is the total picture of what units you've been assigned to and what positions you've held. Review the information provided in this section to ensure all your duty positions are annotated. If you have any discrepancies, provide copies of your assignment orders through your administrative channels. This information can be updated directly from the Records Brief Application.

## Section X – Remarks

SECTION X - Remarks
HIV YRMO

AKO Email
Alternate Email
Date Last Photo
Remarks

The remarks section contains mostly information that didn't explicitly fit into the other sections and as a result has information that is not scrutinized by most board proceedings. The area to focus here is that your AKO Email is updated and accurately reflected in this section. To make any adjustments, contact your full time unit staff and have your AKO Email updated in DBIW. The date of your last DA Photo will still show up even though the DA Photo has been removed.

## State Awards

State Awards

This section is designated for all the State Awards you have been given in your career. This would primarily be service awards, i.e. Long and Honorable or Military Attendance. This could also include Illinois Military Medal for Valor, Illinois Military Medal for Merit, Illinois Distinguished Service Award, or Abraham Lincoln Medal of Freedom. Ensure your service awards are up-to-date and any other state awards you've been given are annotated. For questions on eligibility for state awards, reference NGIL Regulation 600-8-22. Provide any personnel orders or memorandums awarding state ribbons to your administrative channels so they can be placed into your iPERMS and update IPPS-A.

### 3.3.4 Validating the ERB

Once you have successfully reviewed and updated your ERB for your next board proceedings, only verification remains. Verifying your ERB is your opportunity to convey to the board that you have personally reviewed and updated this document. Make sure the data has changed to the date you validated it and download the validated Selection board record brief.

## Section 3.4 APFT/ABCP Verification

### 3.4.1 Overview

These documents will now be part of the promotion packet, it is that APFT/ABCP is up to date and accurate in the systems of record. In past boards it was difficult for board members to get an accurate account of Soldiers APFT and ABCP information. To mitigate these issues and speed up the board process Soldiers are now required to include these documents in their promotion packets.

The DA 705 Army Physical Fitness Test (APFT) Scorecard is the written record of a Soldier's physical fitness evaluation. When preparing for a board, Soldiers must review the DA 705 to ensure their most recent record APFT is annotated correctly and copies of any previous records are included (as applicable). If there is a missing APFT, include a memorandum to the board president of the board explaining why an APFT is missing. Avoid any details that will violate HIPPA.

The DA 5500/DA 5501 Body Fat Content Worksheet is used for any Soldiers who do not meet their table weight according to height in AR 600-9. Soldiers must review these forms (when applicable) to ensure their most recent taping is annotated correctly and reflected on their DA 705 when held in conjunction. Recent changes to the Army Body Composition Program allows for additional time after a record APFT for Soldiers to complete their Height/Weight screenings.

Include a print out of your information also. This will capture Soldiers that do not need a 5500/5501 and may not have had their height and weight written on the PT Cards due to it not being a requirement.

### 3.4.3 IPPS-A Verification

Once a Soldier has verified that the written records of their APFT is valid, it is imperative that they confirm that this information has been updated in IPPS-A by their full time unit staff. This can be done via the Soldiers Self Service page.

From this menu, select My profile. Then My Current Profile on the left. Scroll down to Physical Profiles and Select Army Physical Fitness Test Information.

### 3.4.4 DTMS Verification

A Soldier's APFT and ABCP information is stored in the DTMS program. IPPS-A is the system of record for all administrative processes and DTMS is the system of record for all training processes. Soldiers should verify that the information is updated for both systems. Unit trainers will be able to print a detailed report from DTMS that has all APFT information for the Soldiers of the unit. First Line Leaders should request such a report prior to counseling any Soldiers for an upcoming board.

## CHAPTER 4: Packet Documents

- Relocation of the CPMOS block
- ERB's will be included into the packet
- Region Elections will be done in IPPS-A
- DA 705's (Last Record) will be included
- DA 5500/5501's will be included
- DTMS print out will be included
- 4100's will be required in the packet for all ranks. There are 2 checklist's use the one that belongs to the board you're being considered for.
- SGM Academy information was removed – These board will be conducted separately from the EPS boards.
- SGM Consideration question was removed. SGM boards will be held like any other board and shouldn't need to be asked if you want to be considered. If you want to be considered for E9 put in a complete packet, if you don't want to be considered completed a 4100 declining consideration.

**One note of importance, consideration for the First Sergeant Best Qualified List is an annual requirement.** Soldiers wishing to be considered for First Sergeant need to circle YES and place their initials in the block every year.

## Section 4.2 Memorandum to the President of the Board

### 4.2.1 Correspondence to Board Presidents

A memorandum or letter to the President of the Board is the only option Soldiers have to address any concerns or clarification they have with their packets. As this document could have significant impact on a Soldier's results in the board, following AR 25-50, Preparing and Managing Correspondence is imperative.

AR 600-8-19 explicitly details in paragraph 7-32 the details concerning correspondence to Board Presidents. Below is the extract detailing all the criteria:

- Considered Soldiers may write to the president of the promotion board to provide documents and information, calling attention to any matter concerning themselves, which they feel is important to their consideration.
- The considered Soldier must write these letters or memorandums to the board president. The letters or memorandums may not contain any adverse comments concerning the character, conduct, or motives of any other person, or criticize any other Soldier.
- Written communications from third parties, including a Soldiers chain of command or supervisors are not authorized.

- Although written communication is allowed, it is encouraged only when there is something that is not provided in the Soldier's record, and which the Soldier feels will have an effect on the board's deliberations.
- The Soldier's official record is used to determine quality and potential for promotion. Letters or memorandums (and all enclosures) seen by a promotion board become part of the board record and are not filed in personnel records.
- The following documents are not authorized and will not be given to the board:

Correspondence from anyone other than the Soldier, this includes communication from the Soldier's chain of command, NCO support channel, political sources, or any other third party.

Correspondence that criticizes or reflects on the character, conduct, or motives of any other Soldier.

Incomplete appeals of items such as NCOER, AER, courts-martial, Article 15, or comparable criminal convictions, and so on. Incomplete copies of NCOER or AERs. Only fully complete documents processed through official channels will be seen by the board.

#### 4.2.3 1SG Consideration Request Memorandum

As of the 2018 Enlisted Promotion System, the State Command Sergeant Major implemented the additional requirement of a mandatory memorandum to the president of the board with all 1SG BQLB packets.

This memorandum should address, but is not limited to, leadership experience, broadening assignments/accomplishments, and explanation of what qualifications you possess to be assigned as a First Sergeant. Below is formatting for this memorandum.

## Section 4.3 Specialist/Corporal Promotion Evaluation Report

### 4.3.1 NGIL 2166-9

Based on the fact that there are limited amount of performance based documents found in an E-4's records, the NGIL 2166-9 is arguably the **singular most important** document for a Soldier, when presenting themselves before an Enlisted Promotion System (EPS) Board. It is the Rated Soldier's responsibility to give input and take ownership of this form throughout the rating period and during the established counseling sessions.

The NGIL 2166-9 has been updated to reflect the current changes to Non-Commissioned Officer Evaluations and the Electronic Evaluation System. It has been drafted to reflect the same evaluation criteria a Sergeant (E-5) would receive and Specialists/Corporals should be rated accordingly.

### 4.3.2 Part 1 - Administrative Data

- Ensure all items are correct and in the proper format for every field
- Use the 9-Digit Social Security Number, **NOT** xxx-xx-1234, or Department of Defense ID No. This will reinforce the criteria utilized in the Electronic Evaluation System.
- Enter up to 9 characters in the PMOSC field (example, 15T40, 42A5MA3, 18Z5PW9LA).
- Include a reason for submission for this evaluation (example, Annual or Change of Rater)
- FROM date will begin the day after the last TO date on your previous evaluations. This should be the day after the eligibility cutoff date of the previous board for Soldiers previously boarded or the eligible date for promotion for Soldiers new to the board proceedings.

- Utilize either SSN or DOD I No. for Rater and Senior Rater.
- The NGIL 2166-9 supports digital signatures, ensure the date signed reflects the same date as the digital signature.
- Counseling dates will be filled out in YYMMDD format to verify counseling and development of Enlisted Soldiers.

### 4.3.4 Part 3 – Duty Description

PART III – DUTY DESCRIPTION (Rater)	
a. PRINCIPAL DUTY TITLE	b. DUTY MOSC
c. DAILY DUTIES AND SCOPE (To include, as appropriate, people, equipment, facilities, and dollars)	
d. AREAS OF SPECIAL EMPHASIS	
e. APPOINTED DUTIES	

- Populate the Duty Title/Duty MOSC field to match the information associated with the rated Soldier's MTOE/TDA para/line.
- Duty description should be an accurate description of the rated Soldier's position's common everyday tasks. The more duties the Soldier has, the more responsibility that must be documented in the duty description.
- Appointed duties are duties not normally associated with the duty description. i.e. Postal Specialist, Retention Manager, Safety Specialist, SHARP/VA, RTA, MRT, etc.

#### 4.3.5 Part 4 – Performance Evaluation, Professionalism, Attributes, and Competencies

PART IV – PERFORMANCE EVALUATION, PROFESSIONALISM, ATTRIBUTES, AND COMPETENCIES <i>(Rater)</i>

MET STANDARD <input type="checkbox"/>	DID NOT MEET STANDARD <input type="checkbox"/>		

#### APFT Pass/Fail/Profile & Height/Weight Standards:

A change with the NGIL 2166-9 is APFT and Height/Weight information on page 1 of the document. These blocks have a dedicated portion for comments. Bullet comments pertaining to APFT Failures, No APFT, Profile, or failure to meet Army Weight Standards are mandatory. However, it is advised to include bullet comments to further establish the rated Soldier's physical fitness level.

Ensure all comments are accurate and in standard "bullet" format.

- Start with a lower case "o".
- Do not capitalize the first word of the sentence
- Do not use punctuation at the end of the sentence.
- There is a limit of 2 lines per bullet comment.
- There is a maximum of 3 bullet comments per section, minimum of 2.
- All comments should be SUBSTANTIATED and MEASURABLE. One well-written comment with substantiated results will outweigh 3 "blanket/generic" statements.

#### Character:

The previous section of Army Values has been consolidated to encompass the rated Soldier's character. This section also includes the Soldier's performance concerning SHARP, EO, and EEO.

One of the significant changes to the NGIL 2166-9 is the explicit designation that Raters address only performance while Senior Raters address only potential. Keep that in mind when completing the evaluation form.

Raters will assess performance using a 2-box scale; focused on technical proficiency and is developmental in nature.

**Met Standard:** Rated Soldier successfully achieves and maintains the required Army standards and organizational goals of leader competencies and attributes.

**Did Not Meet Standard:** Rated NCO fails to meet or maintain the required Army standard and organizational goals of leader competencies and attributes.

Presence:

- Identify if the Soldier demonstrates good presence and confidence across expected duties of the position

Intellect:

- Identify if the Soldier demonstrates conceptual capabilities, interpersonal tact, and domain knowledge that are effective for direct level interaction.

Leads:

- Identify if the Soldier demonstrated troop leading procedures and employment of TTPs relevant to their unit.

Develops:

- Identify if the Soldier builds environment of teams and teamwork.

Achieves:

- Identify if the Soldier directs and prioritizes tasks for Team level and below.
- Select the appropriate block concerning NCOES completion or aptitude concerning BLC.

RATER OVERALL PERFORMANCE	
i. I currently rate _____ Soldiers in this grade.	
COMMENTS:	

Rater Overall Performance:

- Raters will annotate how many equivalent Soldiers they evaluate (Rater profile will not be annotated).
- Utilizing the bullet comment format, Raters will provide the complete picture of the rated Soldier's overall performance during the rated period.

4.3.6 Part 5 – Senior Rater Overall Potential

PART V – SENIOR RATER OVERALL POTENTIAL	
a. Select one box representing Rated Soldier's overall potential compared to others in the same grade whom you have rated this year. I currently senior rate _____ Soldiers in this grade.	b. COMMENTS:

c. List two successive assignments and one broadening assignment.	
Successive Assignments: 1) _____	2) _____ Broadening Assignment: _____

### Potential Measures:

- Senior Raters will first annotate how many Soldiers in that particular grade they evaluate. No Senior Rater profile will be created.
- Senior Raters will, in addition, will evaluate the overall potential of the rated individual compared to their peers.

Most Qualified – identify Soldier with strong potential for promotion in the secondary zone; ahead of peers.

Highly Qualified – identify Soldiers with strong potential for promotion with peers.

Qualified – identify Soldiers who demonstrate potential to be successful at the next level; promote if able.

Not Qualified – identify Soldiers who do not demonstrate potential for promotion; possible separation.

### Comments:

- Senior Raters will develop a narrative (not bullet comment) format summation of the rated Soldier's overall potential.
- This narrative will not exceed 5 lines of text.

### Future Assignments:

- Senior Rater will list (duty title only) two future successive assignments for the rated Soldier. Examples include: Team Leader, Unit Administrator, and Assistant Supply Sergeant.
- Senior Rater will also list one future broadening assignment. These are future assignments that are currently outside the Soldier's assigned duties that will help develop the Soldier further. Examples could include Retention NCO, Unit Historian, or Public Affairs Representative.

### Summary

The NGIL 2166-9 provides a much less structured and narrow evaluation platform for evaluating the Soldier. It provides Raters and Senior Raters the opportunity to evaluate their Soldiers according to their own standards and the ability to represent the Soldier overall in both performance and potential.

Ensure when completing the NGIL 2166-9 that qualitative and quantitative bullets are being included. For Senior Raters, the narrative format affords a large forum to discuss the rated Soldier and his/her potential for promotion.

### Section 4.4 Biographical Sketch

#### 4.4.1 Bio Sketch for E7 and above

One of the skills required of a Senior Non-Commissioned Officer is the ability to accurately create and manage their biographical sketch. This document is a summary of administrative information (Rank, Date of Rank, Primary MOS, etc.), Civilian Education, Military Education, Awards, Civilian Affiliations, and Significant Experience. This information should sound very familiar as it is essentially a word version of a Soldier's Enlisted Record Brief.

To facilitate the process, the G1 has created a simple word document and provided it with the EPS board guidance. The word document itself auto-formats to ensure grammatical accuracy. A biographical sketch should never be longer than 2 pages. Below is a screenshot of the template that should be used to create the bio sketch.

### **BIOGRAPHICAL SKETCH**

## **Chapter 5: Consolidated Changes due to COVID-19**

### 5.1

Due to travel and training restrictions established to protect the force and preserve readiness, the ARNG will implement the following temporary changes to minimize delayed promotion eligibility as a result of COVID-19.

The requirement to complete the requisite PME courses, listed in paragraph 1-29a of reference 1a, for the ranks of Sergeant (SGT/E5), Staff Sergeant (SSG/E6), Sergeant First Class (SFC/E7), and Master Sergeant (MSG/E8), is suspended under specific guidelines contained in this policy. This temporary suspension is effective immediately. Unless sooner terminated, these exceptions to policy remain in effect through May 2021.

### 5.2 Training Requirements

APFT: Enlisted Promotion Systems are authorized to use the last record APFT within 24 months, to qualify Soldiers for promotion consideration (to include award of promotion points) and recommendation (pin-on) during the period of this policy. Anything record test prior to 28 March 2019 should be explain in a memorandum to the president of the board.

Weapons Qualification: The requirement for the most recent weapons qualification score is suspended as it pertains to awarding of promotion points within the promotion system. During this period, promotion points will be awarded based on the most recent weapons qualification within the last 36 months.

### 5.3 Promotion without requisite PME

The requirement to complete the requisite PME course, listed in reference 1a, paragraph 1-29a, to qualify for promotion pin-on for the ranks of SGT/E5, SSG/E6, SFC/E7, and MSG/E8 is temporarily suspended.

During this period of suspension, Soldiers are eligible for promotion to the rank of SGT/E5, SSG/E6, SFC/E7, and MSG/E8 without regard to PME completion, provided they held a reserved seat in ATRRS for the final phase of requisite PME where travel/training restrictions prevented attendance, and are otherwise fully qualified as set forth in reference 1a. This temporary suspension of PME does not waive the PME requirement for promotion pin-on to Sergeant Major/E9.

This temporary suspension does not diminish the importance of completing required PME to sustain a professional NCO corps. Further, this suspension does not relieve NCOs from ultimately completing the appropriate level of PME required for the grade to which promoted. An NCO promoted, without the requisite PME, as a result of this

temporary suspension, will be disqualified from future promotion eligibility until such time as they are fully qualified in their newly promoted grade by completing the requisite PME course.

Those who fail to fully qualify themselves for the grade promoted to within the prescribed time limits outlined in reference 1a, table 7-4 may be subject to a bar to reenlistment. The established time line as outlined in table 7-4, will not start until after the COVID-19 travel/training restrictions are lifted.

The ARNG has applied a limited scope during the HQDA suspension of PME. Therefore, consistent with the HQDA suspension previously published PME exception to policy for deployed NCOs, reference 1e, will continue to be applied during this suspension period.

#### 5.4 Consideration and Selection from the promotion list

Distributed Leader Course remains a prerequisite for promotion consideration/recommendation as outlined in reference 1a, paragraph 1-29a

TIG/TIS requirements as prescribed in reference AR 600-8-19 remain unchanged. Soldiers identified and listed in the expanded zone of consideration during the life of the promotion list must meet (TIG/TIS) requirements for promotion selection. All Soldiers must otherwise be qualified on the date established in the annual board memorandum of instruction (MOI).
